

NOTICE ** WATER MAIN REPLACEMENT PROJECT *** NOTICE**

April 8, 2010

Dear Residents of Canco Road, Gleckler Road & Wellington Road:

Gorham Sand & Gravel, Inc., the same contractor working for the City of Portland in your neighborhood on the CSO project, will soon begin the process of replacing the water mains in Canco Road, Gleckler Road and Wellington Road for the Portland Water District. The contractor will also be installing new service lines from the new water main to the street right-of-way line in front of your property where it will be connected to your existing service line. (The service line from the street right-of-way line to your home remains the property owner's responsibility.)

To maintain your water service during the project, temporary water lines will be run along the side of the street with an above-ground service line installed to your house. This temporary line is typically connected to the internal plumbing system through an outside faucet (hose bib), if available. If you have an outside hose bib, please make sure it is functional and accessible. If you do not have an outside hose bib, an alternative connection arrangement will have to be made in order to maintain your water service. The District's field representative and the contractor will be happy to work with you to make the necessary connection.

The work is expected to take a couple of months to complete. We will try to minimize any inconveniences you may experience during the main replacement project. (One inconvenience we may not be able to avoid is running the temporary water main across the end of your driveway. A ramp will be created on both sides of the line, allowing you to drive over it, if it is necessary to cross your driveway.) If we need to interrupt your water service for any reason (excluding emergency situations), we will provide you with a minimum of 48-hours advance notice.

This project is important for us to maintain adequate water quality and service in your area. We appreciate your cooperation. Should you have any questions or comments, please contact me at the number or email below.

Sincerely yours,

William E. Pierce, P.E.
