QUESTIONS:

I just want to verify that the town will not be charging any SY disturbance fees as part of the street opening permit that the contractor will be on the hook for. When I review the link to the town ordinance, I interpret our responsibility to be providing the town with a performance guarantee and disturbance fees will not be charged. Can you verify that this is the districts opinion as well?

Answer: The town will not be charging disturbance fees and a performance guarantee is not required.

Please also verify that the grinding in the spring of 2024 is incidental but the 1.5” HMA 9.5mm will be paid under the pavement item and not considered incidental to the street opening permit.

Answer: The statement is correct.

Contractor shall acknowledge receipt of Addendum #2 in the appropriate location on the Bid Form.
