### **Rating Action: Moody's assigns Aa3 to Portland Water District, ME's 2020 Water Sys. Rev Bonds and Aa1 to 2020 Wastewater Sys. Rev Bonds**

---

09 Jul 2020

New York, July 09, 2020 -- Moody's Investors Service has assigned a Aa3 rating to Portland Water District, ME's \$3.9 million 2020 Water System Revenue Bonds (Water Bonds) (Green Bonds) and a Aa1 rating to the district's \$1.4 million 2020 Wastewater System Revenue Bonds (Sewer Bonds) (Portland Projects/ (Green Bonds). Moody's maintains the Aa3 rating on the outstanding water debt as well as the outstanding Aa1 rating on the wastewater revenue debt.

#### RATINGS RATIONALE

The Aa3 rating reflects the district's well-managed financial operations including sound debt service coverage and very strong liquidity. The rating also incorporates the district's favorable position as the exclusive franchise providing an essential service to the greater Portland (Aa1 stable) area, a diverse customer base with average wealth levels, and a manageable debt profile. In addition, the district is deregulated from the Maine Public Utilities Commission and rate increases, long-term debt issuance, and many other operating matters are now subject to approval only by the district's Board of Trustees. Also reflected in the rating are the weak legal provisions, including the sum sufficient rate covenant, no additional bonds test, and a sinking fund equal to at least 1% of total debt outstanding. Bondholders benefit from additional post-default security provided by the district's ability to assess 10 member municipalities (as provided by Title 35-A, Section 6103 of the Maine Revised Statutes, as amended) to satisfy any debt service deficiency upon event of default.

The Aa1 rating reflects the city of Portland's general obligation rating. The city is legally obligated, pursuant to state statute, to cover all operating and debt service costs apportioned to the city and to levy a property tax to meet those obligations.

We regard the coronavirus outbreak as a social risk under our ESG framework, given the substantial implications for public health and safety. The coronavirus crisis is not a key driver for this rating action. We do not see any material immediate credit risks for Portland Water District, ME. However, the situation surrounding coronavirus is rapidly evolving and the longer term impact will depend on both the severity and duration of the crisis. If our view of the credit quality of Portland Water District, ME changes, we will update the rating and/or outlook at that time.

#### RATING OUTLOOK

Outlooks are usually not assigned to local government credits with this amount of debt outstanding.

#### FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Significant increase in debt service coverage
- Stronger legal provisions

#### FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS

- Decline in debt service coverage or liquidity
- Significant increase in debt ratio
- Failure to approve rate increases to maintain coverage at current levels
- Downgrade to the city of Portland's general obligation rating

#### LEGAL SECURITY

The water bonds are water revenue obligations of the district, and debt service is payable from available revenues of the water system. The sewer bonds are wastewater revenue obligations of the district, and debt

service is payable from available revenues of the wastewater system.

#### USE OF PROCEEDS

Proceeds for the water bonds will finance water mains improvements. Proceeds for the sewer bonds will finance sewer upgrades in Portland.

#### PROFILE

Portland Water District provides water and wastewater services to a population of approximately 215,000, representing 16% of the State of Maine's (Aa2 stable) population. The district's customers are located in Cumberland County (Aa2).
